

PREAPPROVALS – SPECIALTY DRUGS

For UniCare State Indemnity Plan/Basic, PLUS
and Community Choice members

Effective October 1, 2018

For preapprovals

AIM Specialty Health

866-766-0247

www.providerportal.com/

Other (non-oncology) specialty drugs need preapproval through the prescription drug plan. Contact Express Scripts at 855-283-7679.

Specialty drugs that need preapproval

- | | |
|---|--|
| <ul style="list-style-type: none"> ■ Abaloparatide (Tymlos) ■ Adalimumab-atto (Amjevita) ■ Adalimumab-adbm (Cyltezo) ■ Ado-trastuzumab emtansine (Kadcyla) ■ Alemtuzumab (Lemtrada)† ■ Avelumab (Bavencio) ■ Belatacept (Nulojix)† ■ Bendamustine (Bendeka, Treanda) ■ Bevacizumab (Avastin) ■ Bevacizumab-awwb (Mvasi) ■ Bezlotoxumab (Zinplava) ■ Botulinum toxin (e.g., Botox)† ■ Brentuximab vedotin (Adcetris) ■ Brodalumab (Siliq) ■ Buprenorphine implant (Probuphine)† ■ C1 esterase inhibitor (e.g., Berinert, Cinryze, Haegarda, Ruconest) ■ Carfilzomib (Kyprolis) ■ Cerliponase Alfa (Brineura) ■ Cetuximab (Erbix) ■ Daclizumab (Tecentriq) ■ Denosumab (Prolia, Xgeva)† ■ Dexamethasone (Ozurdex)† ■ Durvalumab (Imfinzi) ■ Ecallantide (Kalbitor) ■ Edaravone (Radicava) ■ Epoprostenol (e.g., Flolan, Veletri) ■ Eribulin mesylate (Halaven) ■ Etanercept-szss (Erelzi) ■ Fibrinogen (RiaSTAP) | <ul style="list-style-type: none"> ■ Fluocinolone acetonide (Retisert) ■ Golimumab (Simponi) ■ Guselkumab (Tremfya) ■ Histrelin (Supprelin) ■ Hyaluronic acid (non-knee) (e.g., Hyalgan, Synvisc)† ■ Icatibant (Firazyr) ■ Infliximab-abda (Renflixis) ■ Injection treatment for retinal vascular conditions (e.g., Lucentis, Macugen)† ■ Ipilimumab (Yervoy) ■ Ixekizumab (Taltz) ■ Natalizumab (Tysabri) ■ Nivolumab (Opdivo) ■ Nusinersen (Spinraza) ■ Obinutuzumab (Gazyva) ■ Ofatumumab (Arzerra) ■ Panitumumab (Vectibix) ■ Pembrolizumab (Keytruda) ■ Pertuzumab (Perjeta) ■ Plerixafor (Mozobil) ■ Ramucirumab (Cyramza) ■ Reslizumab (Cinqair) ■ Rituximab (Rituxan)† ■ Sarilumab (Kevzara) ■ Sebelipase (Kanuma)† ■ Secukinumab (Cosentyx) ■ Sipuleucel-T (Provenge) ■ Ziconotide (Prialt) ■ Ziv-aflibercept (Zaltrap) |
|---|--|

† Drugs marked with a dagger symbol are also reviewed for other reasons, such as whether administration in a hospital setting is medically necessary, whether the dose is appropriate, and whether there are clinically equivalent drugs that are more cost effective.
